

University Admit Eligibility Predictor

Project Design Phase-I

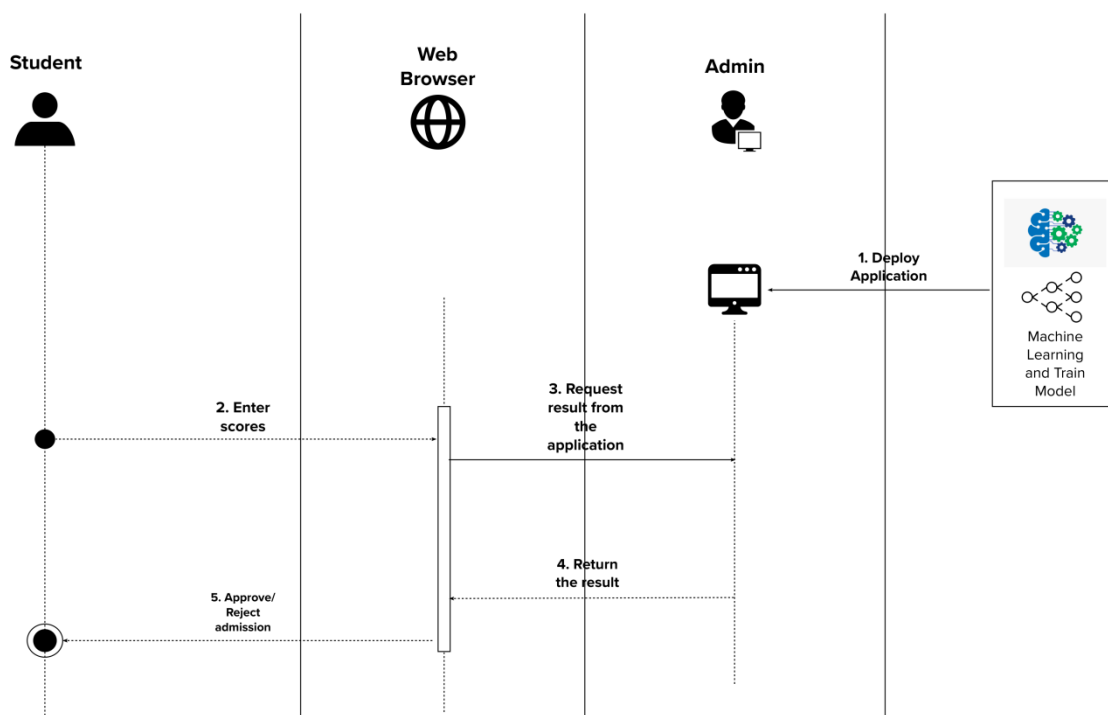

Solution Architecture

Date	16 October 2022
Team ID	PNT2022TMID11450
Project Name	University Admit Eligibility Predictor
Maximum Marks	4 Marks

Solution Architecture:

A solution architecture is an architectural description of a specific solution. Solution architecture is a complex process with many sub-processes, that bridges the gap between business problems and technology solutions.

Solution Architecture Diagram:

1. Application developer (Admin) builds a python based application (Platform) and deploys it.
2. Students enter their data and marks through a web based application.
3. After the student submits, the data can be trained in the background and the result is obtained.
4. Based on the result, the estimates are sent to the user interface.
5. This result is displayed to the student.
